

# Getting to Know Salsify - Viewing Products and Navigation Overview

Last Modified on 08/20/2019 1:12 pm EDT

When you log into your Salsify account, you will be directed to the Salsify Home Screen where you'll see an overview of your ORS products. This is where you'll return to begin updating and submitting product information.

Viewing Viewing SKU Group

SKU Group search sku group + Add Filter Actions

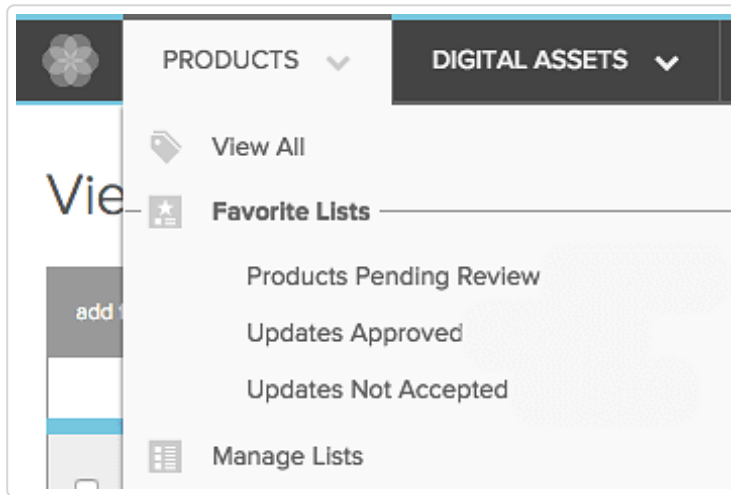

Manage Columns 50 per page 1 - 34 of 34

ID	LONG ITEM DESCRIPTION
115174	Vagabon Leather Case
174598	Nappa Burgundy Carry On
197256	Bostonian Roller Set - Pink

## Products Menu

Selecting the *Products Menu* lets you navigate to the *View all Products* page, access *Favorite Lists* and the *Manage Lists* Page. □

- The *View All Products* page is Salsify Homescreen, if you ever want to go back to this page you can either go to the Products Menu and select “View all Products” or, you can click on the Salsify Flower. □
- *Favorite Lists* are product lists that have been marked as Favorites on the *Manage Lists* Page.
- The *Manage Lists* Page is where you can create, view and edit lists of products.

## Digital Assets Menu

Select the Digital Assets dropdown menu and navigate to *View All Digital Assets* and the *Manage Digital Asset Lists* Page. This is where you will manage the images you are publishing to ORS. []

- The *View all Digital Assets* page where you can view images currently in Salsify and upload new images.
- The *Manage Lists Page* is where you can create, view and edit lists of digital assets in Salsify.[]

## Search Bar

Quickly search for individual products and digital assets from the *Search bar*. The first five products

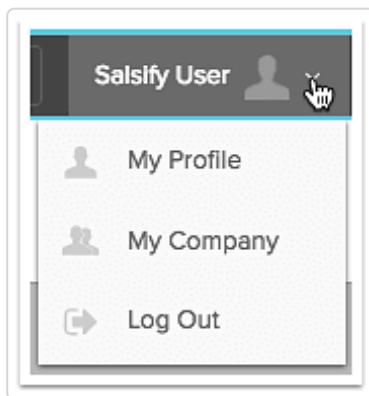

and assets that match your search will be shown in the dropdown menu.

## User Menu

By selecting the User dropdown menu, you can view your Salsify Profile, and invite additional users to Salsify. If you have other people in your organization to help you refresh your product content, you can invite them as users.

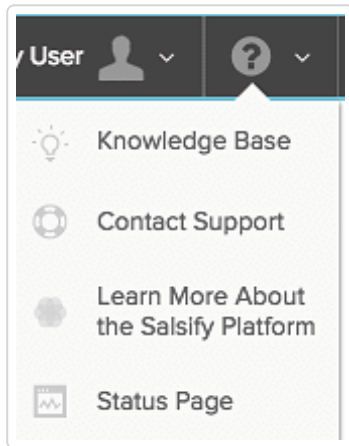

To learn more about how to invite additional users to Salsify, [click here](#) .

## Help Menu

By selecting the Help Drop-Down menu, you can:

- Visit the *Knowledge Base*
- *Contact Support* with questions
- Learn more about the Salsify Platform
- View the app *Status Page* for Salsify's current operation status. You can also subscribe to platform status alerts.

## Viewing the Product Index Page

The product index page displays a list of all the SKU Groups and SKUs in Salsify.

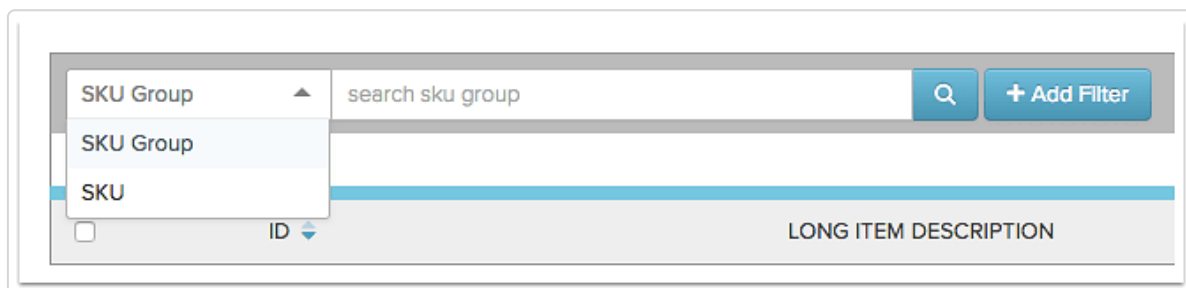

1. Use search and filters to create a subset of products based on a combination of attributes. [Click here](#) to learn more.
2. By default, you will see

SKU Group

in the list. Use the dropdown to toggle between

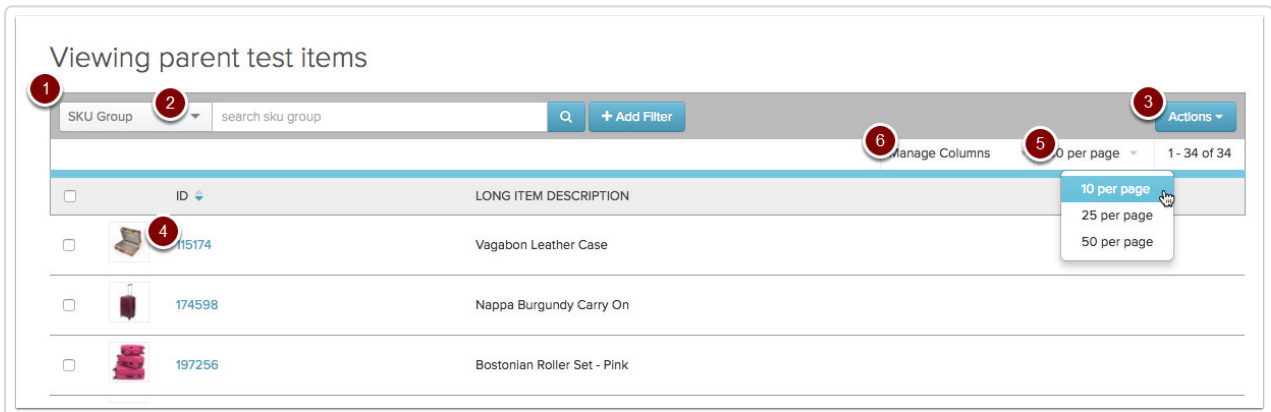

SKU Group

level view and sku level view.

3. Selecting the blue *Actions* button allows you to download product information from Salsify as well as view the ORS Readiness Report by clicking *Analyze Readiness*.
4. Selecting the Item Number link for any product or sku group will bring you to the corresponding page. This page will have all of the property values for that specific product or sku group.

5. Click change the number of items shown on this page.
6. Click next to navigate to the next page of results.

## Create Custom View

You can customize which columns show up when viewing a list of products on the product index screen.

1. Click the *Manage Columns* dropdown menu at the top of the screen.
2. Select *Custom View*.

On the custom view screen, everything in box on the right is what currently appears in your view, in order (top to bottom is left to right on your view). The box on the left contains all the available properties to add to your view.

1. Select the properties you want to add to the screen from the list on the left-hand side, then drag and drop or shift-click a group and use the right-facing arrow to move them to your export, on the right side of the screen.
2. Alternatively, you can move the property by clicking the arrow button pointing to the right, or you can select a range of properties on the left, then use the arrow to move them all to the right at once.
3. You can drag and drop the columns on the right up and down to re-arrange their order.
4. Click *Save* to update your current product view.
